

Health & Safety Policy

Our Vision

We are committed to ensuring the health and safety of our employees and anyone associated with our business.

We want everyone to go home to their families at the end of each working day without suffering any injury or ill-health.

We believe that by striving for continual improvement and engagement in safety, our business will be both a safe and efficient one.

Our Commitments

We will provide safe and healthy places of work, which as a minimum meet legal requirements.

We will integrate health and safety into everything we do through effective leadership and an audited management system that drives continuous improvement year on year.

We will invest in our people by providing appropriate training and awareness.

We will provide access to an Occupational Health team in order to ensure the health and wellbeing of all who work for us.

We will look after each other by taking accountability for our own health safety and for that of others and by learning from any incident, injury or occupational ill-health, through effective investigations.
